-----

On January 31, 2024, the Fengning annual output 1GWh all- vanadium redox flow battery production line project of Hebei Super Vanadium Energy Storage Co., Ltd. entered the environmental impact ...

The bidding announcement shows that CNNC Huineng Co., Ltd. will purchase a total capacity of 5.5GWh of energy storage systems for its new energy project from 2022 to 2023, divided into three ...

China has completed the main construction works on the world's largest vanadium redox flow battery (VRFB) energy storage project. The project, ...

Discover our world-leading vanadium flow battery with unmatched efficiency, sustainability, and reliability. Explore key features and applications of our advanced energy solutions.

The accelerated construction of Electric Energy Storage's annual 1GWh all-vanadium redox flow battery production project is an important measure to actively promote industrial ...

This large-scale energy storage project ensures a continuous supply and highlights the potential of vanadium flow batteries as the foundation for ...

Recently, the reporter visited the construction site of Shanghai Electric's 1GWh all-vanadium liquid flow battery production project, where the construction work is in full swing.

Technology provider Dalian Rongke Power (Rongke Power) and infrastructure developer China Three Gorges Corporation (CTG) have brought ...
