---

Multi-energy microgrids offers a promising area, and naturally, the application of artificial intelligence is storming into the field. Despite impressive progress, research and innovation in microgrids still has ...

Our goal for the Shenzhen-Macao 2025 Symposium on Microgrids is to continue our exchange of results from microgrid research, demonstration, and ...

The U.S. Department of Energy (DOE) Office of Electricity Delivery and Energy Reliability (OE) is hosting a national competition among operational microgrids to enhance grid resiliency and ...

Do you have breakthrough ideas in decentralized energy systems, off-grid systems, or microgrids? PELS TC 12 invites students, researchers, and ...

A list of preferred topics to align with the 2025 Grid of the Future(TM) symposium can be found on the Call for Papers or below. Paper topic selection from this list is ...

As AI data centers, electrification of industrial processes and transportation, and other factors drive a surge in demand for electricity in North America, microgrids and off-grid energy systems are seen as ...

Explore the leading trends, challenges, and opportunities shaping microgrids in 2025. Discover how energy leaders can drive innovation and ...

Due to the request from potential authors, we're pleased to announce that the deadline to submit the extended digest for the 10th IEEE Workshop on the Electronic Grid (eGrid 2025) has been extended ...

Despite impressive progress, research and innovation in microgrids still has many open technical issues to cover, but additionally exploration of business cases and social issues, links to ...
