With a fully liquid-cooled, all-in-one design, it features complete electrical isolation between input and output, significantly enhancing operational safety. The ...

Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ensures reliable backup power for industrial and commercial sites. Designed with a high discharge rate for ...

Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ensures reliable backup power for industrial and commercial sites. Designed with a high discharge rate for transformer-based ...

We have been specializing in ICESS (Industrial and Commercial Energy Storage System) solutions for over 9 years. We currently have 87 employees, including 24 engineers.

Our battery storage cabinets are constructed with a modular design, providing optimal flexibility for businesses across various sectors. Our power storage ...

Integrated cabinet design, easy to deploy and install. Support 1P discharging to meet the power demand of high-power impact loads. Fully liquid-cooled design, suitable for harsh environmental scenarios.

Powering the Future: Uninterrupted Operations as a Business Imperative In the era where industrial and commercial operations pursue high efficiency and stability, uninterrupted power supply ...

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery ...

Using Dyness home energy storage products can save you money, cope with power outages, and keep your appliances running 24/7, providing you with worry-free electricity use.

350kW energy storage cabinet for power stations

To meet the requirements of energy storage systems with different voltage levels from 48V to 2000V, HyperStrong has reliable solutions, rich practical experience ...
