---

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.

The 5MWh Liquid-Cooled Energy Storage Container is a high-capacity, modular energy storage solution designed to enhance grid stability, optimize energy use, and support ...

The 5MWh container energy storage system is a super cool solution that seamlessly combines different parts, like a Lithium iron phosphate battery, Battery Management System, Gaseous ...

uses standard battery modules, PCS modules, BMS, EMS and other systems to form standard containers to build large-scale ...

The 5MWh BESS comes pre-installed and ready to be deployed in any energy storage project around the world. We can offer flexible deployment of multiple battery ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application ...

Improved safety characteristics and specially optimised for the highest requirements on safety, reliability and performance. Suitable for industrial, ...

Housed in a prefabricated 40ft container, the system integrates 2.5MW power conversion, 5MWh of high-voltage LFP batteries, a step-up MV ...

High economic efficiency:315 Ah LFP cells with high energy density and prolonged cycle life realize a cost reduction per kWh of 30%; 5MWh in one 20ft container; side-by-side ...
