Our foldable solar containers combine advanced photovoltaic technology with modular container design, delivering rapid-deployment, off-grid renewable energy with industry-leading efficiency.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

Our Battery Energy Storage System (BESS) can be operated under on-grid and Off-grid operation mode. The BESS system is controlled to cut off the grid ...

The Latest Price Of 0.5MW 1MW 2MW 10MW 5MW ESS Container Energy Storage System Off On Grid With Solar Power Battery, Cost High Quality Solar And Competitive Price, Three Phase Off Grid ...

Data Logging Stick allows you to receive information from solar power system, in order to keep you informed about the situation of your PV system, and the ...

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverter/chargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...
