DSIRE is the most comprehensive source of information on incentives and policies that support renewables and energy efficiency in the United States. Established ...

The Inflation Reduction Act of 2022 (IRA) is the most significant climate legislation in U.S. history. IRA's provisions will finance green power, ...

Armenia is a country with enormous solar energy potential. Energy flow per square meter is about 1,720 kWh compared to the European average of 1,000 kWh. Accordingly, the Armenian government is providing various incentives to promote solar energy self-consumption practices. For example, residential consumers are exempt from regulations if they have an installed capacity of up to 150 kWh. Per amendments made in 2017, the limit for commercial consumers has been increased, and in the ca...
