ENSEGA is a capacitor-based, biodegradable, and recyclable energy storage solution for small-scale applications like car batteries, forklifts, marine systems, and streetlights.

Containerized capacitor banks and harmonic filters.

Deploying traditional capacitor enclosures can pose logistical challenges. That's where Powerside's Container-MVar comes into play. A fully ...

A capacitor bank assembly consisting of a bypass switch, capacitors, reactors, discharge coils, surge arresters, vacuum contactors, and secondary equipment housed in a metal box.

This brochure describes Eaton's Cooper Power series metal-enclosed substation capacitor banks which reduce losses and CO2 emissions and improve power quality, safety and reliability in underground ...

Container-MVar is a fully engineered, medium-voltage, metal-enclosed capacitor bank (Power-MVar or Synchro-MVar from Powerside) housed entirely in a standard 20" or 40" ISO container.

Meet our FALCON container type harmonic filters, an equipment designed to fit your needs. Discover why we are your best option!

Whether you are a retailer, distributor, or manufacturer, you can trust us to provide you with the capacitors you need to keep your business running smoothly, Get in touch with us today to discuss ...

Hitachi Energy modular capacitor solutions include a pre-engineered capacitor bank with a power circuit breaker, protection and control panel, - all factory mounted and tested on a steel skid structure.
