---

Lithium-ion batteries (LIBs) are a critical part of daily life. Since their first commercialization in the early 1990s, the use of LIBs has spread from consumer electronics to electric vehicle and ...

Due to increases in demand for electric vehicles (EVs), renewable energies, and a wide range of consumer goods, the demand for energy storage batteries has increased ...

Batteries and Secure Energy Transitions - Analysis and key findings. A report by the International Energy Agency.

The North American Battery Energy Storage System Market is segmented by battery type, connection type, component, energy capacity, ...

With continued advancements, lithium-ion batteries will remain a cornerstone of the global energy transition, requiring collaborative efforts among researchers, industry ...

A boom in battery storage has bolstered the demand outlook for lithium in 2026, driving hopes for an accelerated turnaround for an ...

The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the ...

The global market for Lithium-ion batteries is expanding rapidly. We take a closer look at new value chain solutions that can help meet the growing demand.
