The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

We are a leading provider of energy storage cabinets, outdoor cabinets, battery cabinets, and solar cells, specializing in customized energy management solutions.

As Guyana positions itself as a Caribbean energy leader, this EPC project demonstrates how electrochemical storage can transform national grids while supporting sustainable development goals.

We are integrators of Tier 1 battery energy storage systems. We offer fully integrated systems with in-house energy management systems (EMS) and ...

China power construction energy storage plant operation The world's first 300-megawatt compressed air energy storage (CAES) demonstration project, "Nengchu-1," has achieved full capacity grid ...

We offer a complete range of products, including household, industrial, commercial, and site energy storage systems. Our company integrates R& D, production, and sales services, ensuring the highest ...

It will be deployed approximately 200 kilometers offshore Guyana, at a water depth of 1,690 meters, using a SOFEC Spread Mooring System, and it will be able to ...

Huijue's lithium battery-powered storage offers top performance. Suitable for grids, commercial, & industrial use, our systems integrate seamlessly & optimize renewables. High-density, long-life, & ...

The Kumu project is the second plant delivered as part of Vidullanka PLC's EPC contract with the Guyana Energy Agency, the first being Moco Moco which was commissioned in December 2024.
