We Group stands at the forefront of Smart Battery Energy Storage Systems (Smart BESS), offering a comprehensive range of products and services catering to diverse sectors.

This review paper provides the first detailed breakdown of all types of energy storage systems that can be integrated with PV encompassing electrical and thermal energy storage systems.

This article provides an overview of various types of solar energy storage systems, including batteries, thermal storage, mechanical storage, and pumped hydroelectric storage.

Solar Energy Storage Power Container is a modular, all-in-one solution that combines solar power integration with high-capacity battery storage. Ideal for commercial and industrial use, it offers ...

Smart integration features now allow multiple containers to operate as coordinated virtual power plants, increasing revenue potential by 25% through peak shaving and grid services.

The lightest and most portable of our Energy Storage Systems, the ZBP 2000, which is built to small events, small construction sites, and is especially useful for powering small electric tools.

Designed to store 450 MWh of clean energy - enough to power 150,000 homes daily - this facility combines lithium-ion battery systems with advanced energy management software.

Engie Energia Peru SA, part of French energy utility group Engie SA (EPA:ENGI), has inaugurated its 26.5-MW battery energy storage system (BESS) in the Lima region.
