---

A case study of the synergy between wastewater treatment plants and photovoltaic systems, aiming to improve the energetic, environmental and economic impacts, is presented.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

15kW / 35kWh Hybrid Solar System Integrated Energy Storage Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55 ...

All DER (engines, storage, CHP, PV solar, UPS) can be integrated into a hybrid microgrid that would provide the highest level of resilience and economic benefit to a Water or Wastewater Authority.

The system stores surplus solar energy during peak production hours (typically 11 AM-3 PM), releasing it during evening demand spikes. Field data shows a 40% reduction in grid dependency for ...

Enter the Modular Wastewater Treatment Plant (MWTP): a scalable, flexible, and innovative solution designed to address modern wastewater ...

By selecting a properly certified, functionally integrated photovoltaic grid cabinet, you avoid project delays, improve system uptime, and meet ...

IPKIS offers essential PV grid-connected cabinets. They separate solar generation from the grid, supporting measurement and protection.
