Vanitec is a technical/scientific committee bringing together companies in the mining, processing, research and use of vanadium and vanadium-containing.

On April 8, the Energy Bureau of Inner Mongolia Autonomous Region released the first list of grid-side independent new energy storage power station demonstration projects.

The all-vanadium liquid flow industrial park project is taking shape in the Baotou city in the Inner Mongolia autonomous region of China, backed by a ...

This project is the first batch of independent new energy storage power station demonstration projects on the grid side in Inner Mongolia, and it is also the first and largest all-vanadium liquid flow energy ...

The all-vanadium redox flow energy storage system fell below 2 yuan/Wh for the first time, and Dalian Rongke won the bid for the Inner Mongolia 2.5MW/10 MWh project, with a unit price ...

Since 2022, the liquid flow energy storage company has established six subsidiaries in Inner Mongolia, Qinghai, Gansu, Shandong, and Xinjiang provinces, with a total investment of 90 million yuan. Its ...

Because this vanadium application is still the leading driver for its production, it's possible that flow battery suppliers will also have to compete with metal alloy production to secure vanadium supply.

Title: Vanadium flow and lithium-ion combine in world's largest grid-forming hybrid storage plant in China, Summary: A 300 MW/1,200 MWh battery energy storage system (BESS) in Ordos, Inner ...

The all-vanadium liquid flow industrial park project is taking shape in the Baotou city in the Inner Mongolia autonomous region of China, backed by a CNY 11.5 billion (\$1.63 billion) investment.
