-----

In late 2025, Envision connected the world's largest single-site 4 GWh energy storage power station to the grid in Inner Mongolia, completing a major regional storage cluster.

China brings online 300 MW/1,200 MWh grid-forming energy storage facility in Inner Mongolia, integrating lithium-ion and vanadium flow battery technologies.

Recently, the Gushanliang 300 MW/1,200 MWh Grid-Forming Hybrid Energy Storage Power Station in Ordos, Inner Mongolia, successfully completed the full-process testing and acceptance of ...

Sineng Electric supports the commercial operation of a 300 MW / 1,200 MWh hybrid energy storage power plant in Ordos, China, deploying advanced grid-forming technology to enhance grid ...

October 4, 2024: An agreement was announced last month to construct a 50MW battery storage power station in the Baganuur district of Ulaanbaatar, Mongolia, which is expected to be commissioned in ...

On December 12th, the Inner Mongolia Energy Group's 400MW/1.600MW independent energy storage project in Dengkou County ...

The world's largest single-site electrochemical energy storage power station--the Envision Jingyi Chagan Hada Energy Storage Power Station--was successfully connected to the grid, ...

To prepare for the winter of 2024-2025, prevent electricity and heating shortages, and ensure uninterrupted power supply to consumers, an international open tender for the construction of ...

The world's largest energy storage power station has been put into operation in Bayannuur, North China's Inner Mongolia autonomous region.

On 12 December 2025, Inner Mongolia Energy Group announced that its Dengkou County 400 MW / 1,600
