Our mega projects for providing clean energy solutions underline our commitment to preserving the earth's environmental fabric. These ventures are also drivers of India's growth story, helping the ...

Panama is preparing new short- and long-term tenders for capacity and energy procurement. Studies are underway to determine the reserved quota ...

From 2026 onwards, the country will launch four renewable energy auctions in successive phases. These will initially prioritise hydropower and wind, before gradually incorporating ...

This project achieves self-sufficiency and efficient utilization of energy by combining renewable energy sources such as wind and solar energy with energy storage systems.

Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage.

Recently, Ritar International Group's wind-solar-storage integrated energy storage power plant project officially came into operation in Panama and achieved successful grid connection.

We pioneered the technology over one decade ago, and today almost half our new projects include a storage component. Energy storage is a "force multiplier" for carbon-free energy.

The Madre Vieja solar project is located in Panama, in the Municipality of Progreso (district of Barro Colorado, province of Chiriquí), near the east coast. It spans approximately 33 hectares and will have an ...

Discover how cutting-edge energy storage solutions in Colon, Panama, are transforming grid stability and accelerating renewable adoption.

Panama Wind Solar and Energy Storage Project

The Panama Energy Center project is an innovative solar and energy storage project proposed for Lancaster County, Nebraska that will combine up to 304 megawatts of clean, solar energy with 120 ...
