Differential settlement during the PV solar array life can be expected for most landfill types. Adding weight to a cap system with geosynthetics may disturb the veneer stability of the cap. ...

PPAs provide a means to avoid the upfront capital costs of installing a solar PV system as well as simplifying the process for the host customer. In some states, however, the PPA model ...

It is important to consider whether a contract as a whole meets the net settlement characteristic of a derivative. In other words, a buyer must determine whether, on the basis of the ...

The district attorneys of San Francisco, Alameda County, and three other counties settled a lawsuit with a solar energy supplier to resolve allegations the company, Vivint Solar, misrepresented ...

This IR clarifies the requirements for structural support of solar systems, anchorage of solar systems, solar support frame systems, balance-of-system (BOS) equipment, and building-integrated ...

We address the financial, logistical, and legal questions relevant to implementing National Renewable Energy Laboratory a PPA, but we do not examine the technical details--those can be discussed later ...

Seek qualified legal expertise before making binding financial decisions related to a 3rd-party PPA. See following slide for authority references.

A prescriptive pathway to expedite permitting for installations that meet requirements relating to: Building type, roof structure, and material requirements; Loading requirements (not to ...

While not every closed landfill in the state is suitable for placement of a photovoltaic (PV) solar array system, landfills with preferable site characteristics have the opportunity to generate clean, ...
