What is Solar Payback?What is the Federal Solar Tax Credit?Average Solar Payback Period in the U.S.Can Solar Panels Pay for Themselves?How Long Do Solar Panels Last?The Best Tech Newsletter AroundDusan Petkovic/Shutterstock So, again, can solar panels pay for themselves? Absolutely. If you live in specific states, you could quickly pay off an entire home solar panel system in under five years. Or, in other regions, spend upwards of 12+ years before the system pays for itself. But once it does, everything else from that day ...See more on howtogeek Author: Cory Gunther.
