At ElBarkal, we design compact systems using Greensun Solar panels, hybrid inverters, and optional battery storage -- perfect for locations with unstable or no grid access.

This project is situated in a region of Sudan experiencing unstable or unreliable grid electricity supply. To address the challenge of securing stable power for critical local infrastructure--such as factories, ...

Located in Sudan, this project addresses the region's inadequate grid supply by implementing an integrated "photovoltaic + energy storage" solution to provide clients with stable, clean power.

Empower & UNDP deliver 84 solar water systems in Abu Hamad, a major irrigation project in Sudan with LONGi solar panels, Jntech inverters, Italian Pentax ...

With 32% of Sudan's population lacking electricity access (World Bank, 2023), energy storage projects have become crucial for achieving energy security. The country's abundant solar resources - ...

Need panels, inverters or a ready kit? Browse our catalogue of Solar Kits, Panels, Inverters, Batteries, Pumps & Irrigation Solutions and Accessories.

Learn how this nearly 100kWh solar storage systems setup delive energy independence, high efficiency, and long cycle life.

In a monumental partnership, Huawei is collaborating with the Sudanese government to develop a 1,000 MW solar power project. This ...

Research and projects on solar energy in Sudan have primarily concentrated on solar PV systems, with relatively limited focus on ...
