We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

A versatile mobile solar PV container offering plug-and-play green energy solutions with modular design, high-efficiency panels, and global mobility for off-grid and emergency power needs.

Save on electricity costs with a climate-friendly solar cell-based solution for the construction site! With solar panel modules on the roof of your containers, you ...

In this study, to the aim was to design an isolated, reliable and efficient DC-DC (flyback based) photovoltaic energy sourced supply unit, which has its own electrolyte-super ...

What is an uninterrupted power supply (UPS) system? Abstract. In the modern world, when there is a power outage or a power failure, telecommunication systems, computer systems, and many other ...

In this work, the design and management of directly integrated photovoltaic energy in uninterruptible power supplies is presented. In the literature review, it is identified that most of the ...

Our patent protected solar power units fits perfectly on top of 20" or 40" containers. No more hassle to get cost-efficient, green, energy to your containers. ...

The power supply in Denmark is very stable, and if power outages occur, it is often only a minor local interruption. If you experience a power outage, you should check whether it is only in your ...
