Model: UWB-XG (UWB-XG-BK Black housing) Type: 802.11AC Wave2 Super-Capacity Indoor/Outdoor Quad-Radio WiFi Basestation with RF Channel Filtering and Directional Beam Shaping Antenna ...

The UWB-XG UniFi WiFi BaseStation XG delivers unprecedented wireless awareness and security, including tools for real-time spectrum monitoring, ...

Angle-based AOA localization is the base station through the antenna array to measure the incident position of the wireless signal, which is used to calculate the angle between the tag and the base ...

For ultra high density environments, such as an outdoor music festival, where there are numerous clients in a relatively small space, we recommend the UniFi WiFi BaseStation XG.

Disclosed in the present invention are an ultra-wide band (UWB) base station and a positioning method therefor.

Tri-radio WiFi 5 AP with 12 spatial streams and a selectable beamforming antenna, designed for high-density applications at large venues.

The precision of ultra-wideband (UWB) positioning is critically dependent on the deployment of BS. This research addresses the deployment of UWB base-station (B

While GPS is synonymous with UWB outdoor positioning and navigation, indoor navigation presents a unique set of challenges that most ...
