The energy transition is entering a new phase. It is no longer defined solely by how much renewable capacity is installed, but by how reliably and efficiently the system operates as a whole. In that shift, ...

On Feb 21st, LG Energy Solution will collaborate with Estonia-based Diotech OÜ and Transcom AS on the largest battery energy storage system (BESS) project in Estonia. In the first ...

Diotech OÜ and Transcom AS will commence construction in February 2026 of a 100 MW / 200 MWh battery energy storage system (BESS) facility in Tsirguliina, Valga County. Project ...

The Baltic Storage Platform (BSP) has secured EUR 85.6 million (USD 99.6m) from a group of European financial institutions to support the Hertz 1 and Hertz 2 battery energy storage ...

Estonia is actively utilising both, putting online large solar and wind installations. Soon, these massive batteries will act like a buffer, storing excess electricity ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

Estonia has delivered its largest heat storage facility, begun construction on its largest solar-plus-storage hybrid project, and is preparing to break ground on an 800 MWh battery park in ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Estonia's Auvere BESS project is designed to participate in both the electricity exchange and other energy markets to ensure the security of ...
